

Wielrenroute Vaals - Schinveld - Vaals

Race cycle route

→ 101.4 km

Start- and endpoint

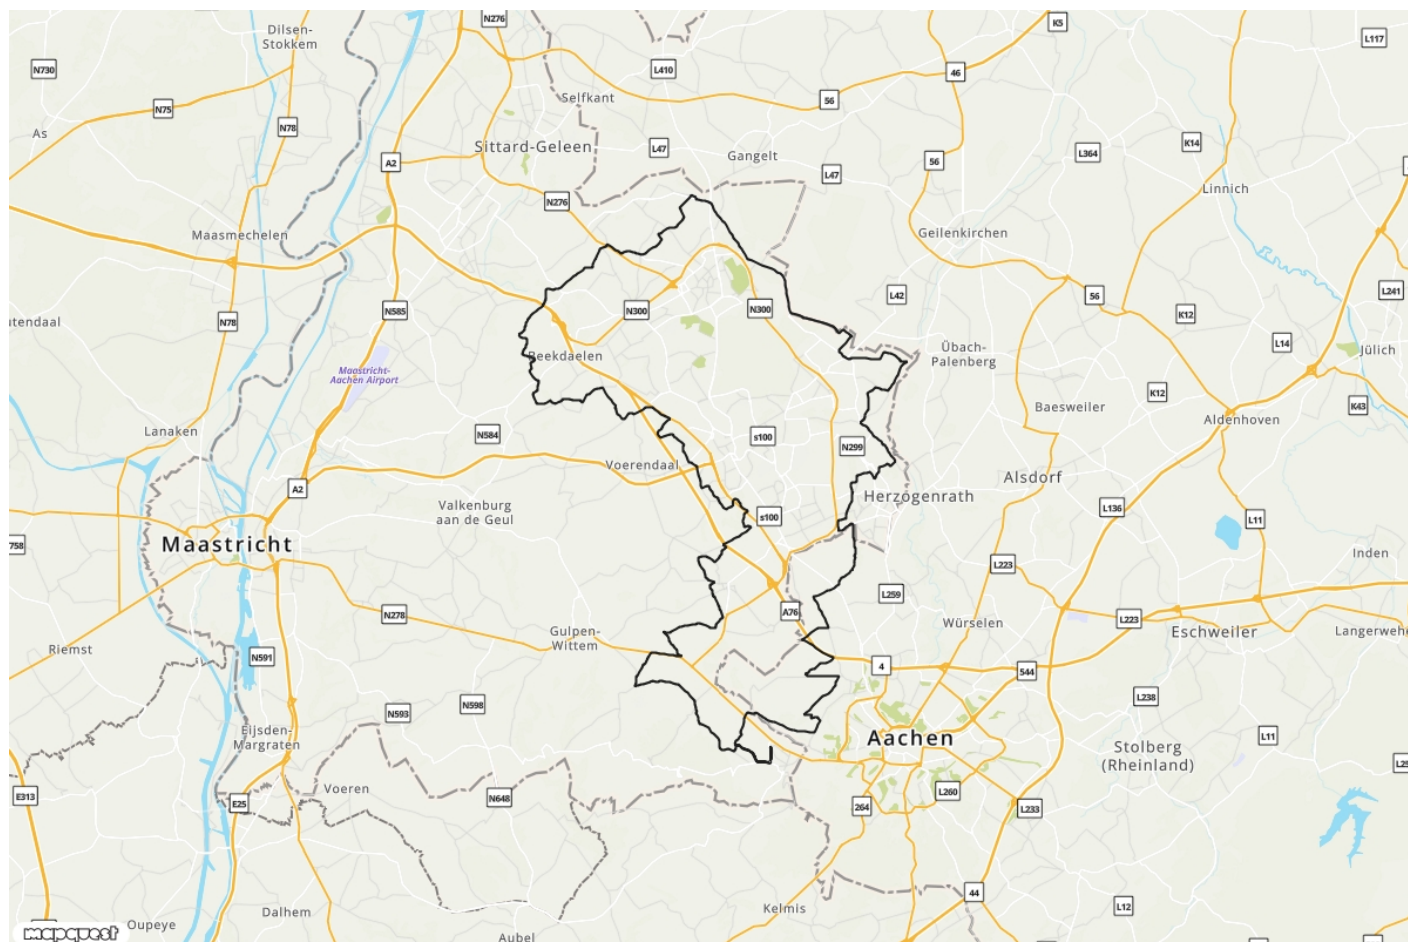

Landal Vaals, Randweg 2 te Vaals

Level of difficulty

Heel moeilijk

You can call this ride a true adventure. You see, to this route, created by Limburg Cycling and Grimpeu, plenty of altitude metres are included. However, you are not going to conquer them on the well-known climbs in the surroundings of Vaals. This is an atypical, challenging tour with unknown climbs. Starting point is Landal Vaals. Right from the start you steer towards the unknown, as the climbs will be German ones! With 95 kilometres ahead of you, and over 1000 altitude metres to overcome, you will be done and dusted, once you return at the Vaalserberg, or, as the Germans say: 'fix und fertig'.
