The Hertog Limburg-pad is a long-distance walk through the old Duchy of Limburg. This historic route takes you from Rode-le-Duc, Rolduc near Kerkrade in the Netherlands, via Hertogenrode/Herzogenrath in Germany to the residential town of Limbourg-sur-Vesdre in Belgium and back again, of course. Follow the paths as the dukes of Limburg walked them in the 12th and 13th centuries. The route is a true voyage of discovery in the trilingual 'Land without Borders', which may serve as a historical model for European unity and cooperation around Limbourg and around Eurode (Kerkrade/Herzogenrath) in the current Meuse-Rhine Euregion. Please note, this route is not signposted.
