Fietsroute - Smaakvolle mix van krijt & löss

Cycle route
26.8 km

Start- and endpoint
Plenkertstraat 55, 6301GL, Limburg

Level of difficulty
Gemiddeld

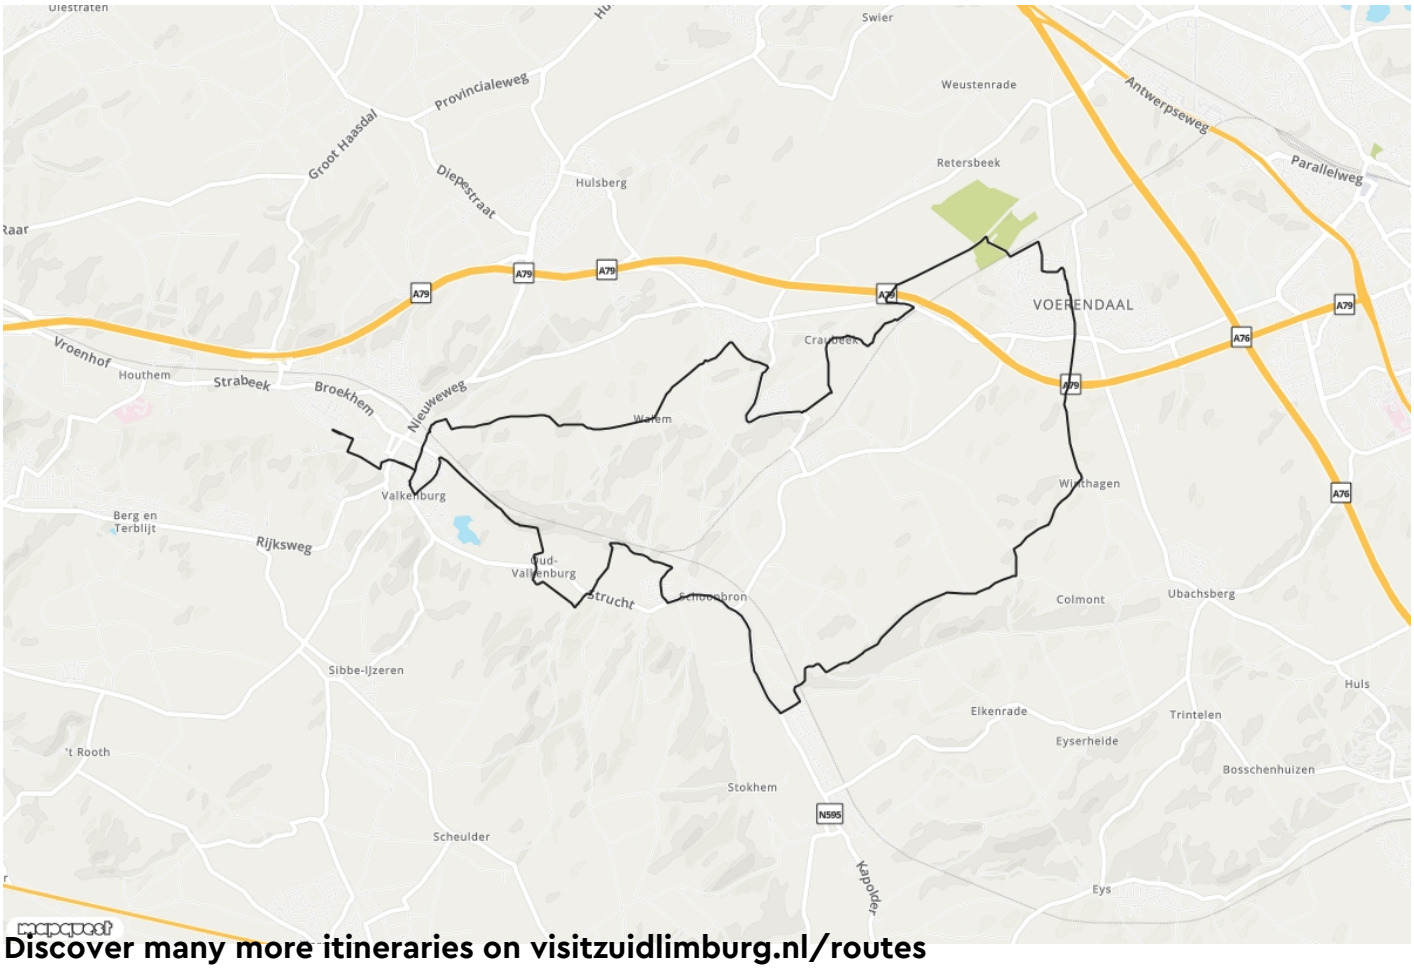

On this route, lime is the overwhelming theme, immersing you entirely in the environment. For the ultimate experience, the lime cycle route has been divided into four linked loops, each of which tells a different story. The total route covers over 117 kilometres. A fanatical cyclist could travel through the entire era in one go, but, of course, you can take several days.

Where can you 'experience' lime more than in the Land of Lime? In the countryside between Valkenburg, Heerlen and Vaals, you can feel, taste and admire it. Of course, the tasting refers to the many vineyards and orchards that thrive on the fertile loess soil.
